Christopher Tate

UI/UX Designer & Frontend Developer

Raleigh, NC • (919) 270-3499 • ctate752@gmail.com • LinkedIn

UI/UX Designer and Frontend Developer specializing in user-centered digital experiences. Proficient in creating high-fidelity designs with Figma and Adobe XD, then bringing them to life through React and Next.js development. Proven track record in medical software with a focus on bridging design and development to deliver intuitive, accessible products within collaborative team environments.

Experience

UI/UX Designer | DocSpera

Remote • August 2023 – Present

- Designed comprehensive mockups within Figma and Adobe Xd, improving design-to-development handoff using components and agentic workflows
- Created and presented high fidelity mockups for mobile and web applications within medical software
- Collaborated and lead frontend and backend developers into deploying a full-functional application
- Developed Typescript-supported components and deploying NextJS applications with backend connections
- Provide marketing materials and designs utilizing the Adobe Suite for announcements, releases, and blogs

UI Designer | Chekhub

Raleigh, NC • May 2022 – October 2022

- Designed user interfaces for both web and mobile platforms for business management
- Created marketing and supporting animations within applications and social media
